MURDER MYSTERY SEASON

3rd December : The Curse of Hangman's Drop

Set in a Golf Club in the present day, the President has come to an untimely and horrific end during the Presidents Cup competition. Egnell Pump, the club pro is under suspicion as is Linklaeter Spasm and his wife Hermione, and Mr & Mrs Swallocks. Surely these upstanding pillars of the community could not have had a hand in this foul deed, and what is so special about the 17th hole, Hangman's Drop?

10th December : To Stage a Death

A 1931 traveling theatre company makes a grisly discovery just before curtain up on the opening night of their new production of 'Burke & Hare'. It must have been one of the company, but how was it done? and who done it? The cast are indeed a strange bunch of people, but one of them is strange enough to commit this murder. Can you put your finger on the culprit? Who could have ended the life of Siegfried Soloman the producer, but, more to the point how was it done? A puzzle indeed.

16th December : Shot to Fame

Is everybody happy? Sei in 1966 in Saplin's Holiday Camp (or on a cruise liner). The evening of the variety show ends in mayhem and nightmare as jaded comedian Mike Brash is murdered. Which of the motley holiday crew committed this foul deed, or was it all of them? Only you and the policeman can decide... or can you?

17th December : Hacked to Death

In this modern fast-forward world of 'IT' and computer wizardry it was perhaps inevitable that eventually someone would commit a murder using a PC! Could that someone be Mac Lappopp, Dorothy Comme, Fortran Wormwood or even Cleatus Plus or perhaps Thrupton Babbitt. Would anyone notice the demise of a nerd? Will the investigating officer be obliged to wear an anorak and constantly speak unintelligible jargon?

£44.95 Per Person, Includes Luxurious 3 Course Dinner

Plus complimentary Glass of Wine*, Soft Drink or Half Pint of Beer / Lager & finest Belgian Speciality Chocolates (with Coffee) by Ingrid & Lucas Story, the Belgian Master Chocolatiers of the Victorian Market
